Application No. \_\_\_\_\_

**APPANOOSE COUNTY BOARD OF SUPERVISORS  
APPLICATION FOR APPROVAL OF UNDERGROUND CONSTRUCTION  
ON COUNTY HIGHWAY RIGHT-OF-WAY.**

Applicant:

NAME OF INDIVIDUAL OR COMPANY

ADDRESS

incorporated under the laws of the State of \_\_\_\_\_ with the principal place of business in

CITY

STATE

Date \_\_\_\_\_

Appanoose County Board of Supervisors,  
Centerville, Iowa

Gentlemen:—

Approval is hereby requested of under-ground construction of \_\_\_\_\_  
(DESCRIBE FULLY WORK CONTEMPLATED)

Plat of proposed under-ground construction showing location and other pertinent information, shall be attached to each copy of the application.

The proposed line will be located on County Road No. \_\_\_\_\_, Appanoose County, \_\_\_\_\_ miles

from \_\_\_\_\_ more specifically described as follows:

(DIRECTION)

(PLACE, TOWN, ETC.)

**AGREEMENTS.** The applicant agrees that the following stipulations shall govern under this permit:

1. All trenches constructed longitudinally along the road shall be placed not closer than \_\_\_\_\_ feet from the edge of the pavement, or not closer than \_\_\_\_\_ feet from the centerline of unpaved highways.

2. The applicant will at any time subsequent to placing the cable, pipe line or tile line, and at his own expense, relay, reconstruct or encase his lines as may become necessary to conform to new grades, alignment or widening right-of-way, resulting from maintenance or construction operations by the Board of Supervisors irrespective of whether or not additional right-of-way is acquired in connection with such highway improvement. The applicant agrees to do this promptly on order by the Board of Supervisors, and without cost to the County. If the applicant is unable to comply promptly, the Board of Supervisors may cause the work to be done, and the applicant will pay the cost thereof upon receipt of statement.

The Board of Supervisors will endeavor to give the applicant sufficient notice of any proposed construction or maintenance work, on either existing or newly acquired right-of-way, that is likely to expose, cover up, or disturb any cable, pipe line, or tile line belonging to the applicant, in order that the applicant may arrange to protect his lines. The Board of Supervisors will inform contractors, and others working on the job, of the location of the lines so that reasonable care may be taken to avoid damaging the lines. The County and the Board of Supervisors assume no responsibility however, for failure to give such notice.

3. The County and the Board of Supervisors assume no responsibility for damages to the applicant's property occasioned by any construction or maintenance operations on said highways, including new or additional right-of-way acquired in connection therewith, subsequent to the buildings of the said pipe line, conduit or tile line.

4. The applicant shall take all reasonable precaution during the construction of said cable, pipe line, or tile line to protect and safeguard the lives and property of the traveling public and adjacent property owners and shall save the County and the Board of Supervisors harmless of any damage or losses that may be sustained by the traveling public or adjacent property owners on account of such construction operations.

5. Operations in the construction and maintenance of said cable, pipe line, or tile line shall be carried on in such a way as to not interfere with, or interrupt traffic on said highway.

6. The applicant shall hold the County and the Board of Supervisors harmless from any damage that may result to said highway because of the construction or maintenance of said cable, pipe line, or tile line, and shall reimburse the County or the Board of Supervisors for any expenditure that the County or the Board of Supervisors may have to make on said highway on account of said applicant's cable, pipe line, or tile line having been constructed thereon.

7. The applicant agrees to give the Board of Supervisors forty-eight hours' notice of its intention to start construction on the highway right-of-way. Said notice shall be made in writing to the person whose name is shown below.

8. Cable, pipe line, and tile line crossings shall be constructed as follows: Pipe lines having an inside diameter of more than 2" which cross under the roadway shall be placed in casings so that the pipe may be removed for repair without disturbing the subgrade. The casing shall be of adequate strength, and of sufficient length to extend 2' beyond each edge of the surfaced roadway. Water lines not encased shall be copper or lead. On paved roads, cable, pipe lines and casings may be placed through the subgrade by jacking, or by boring a hole just large enough to take the line; or, if the Highway engineer approves, a tunnel may be dug through, and the cable, pipe line or casing placed therein. On roads not paved, an open trench may be dug, and the cable, pipe line, or tile line placed therein, and the trench backfilled over the line. All backfilling of tunnels and trenches shall be thoroughly compacted in layers of 6" or less in depth, or carefully puddled. Backfilling of trenches within the right-of-way but not under the traveled roadway, shall be tamped sufficiently to avoid settlement. All work shall be done in a workmanlike manner, and the ground left in a neat condition, satisfactory to the Highway engineer in charge.

9. This permit is subject to any laws now in effect or any laws which may be hereafter enacted.

10. This application is subject to all the rules and regulations of the Board of Supervisors and to revocation by the Board of Supervisors at any time, when in the judgment of the Board it is necessary in the improvement or maintenance of the highway or for other reasonable cause.
