## HOOAH

HOOAH, Inc's mission is to lend support to forward deployed servicemen and women, their stateside families, and returning veterans with a high level of understanding, compassion, and empathy. HOOAH operates with 100% volunteers. They do not pay any staff or members of their organization.

## GUITARS FOR VETS

Their primary focus is using the healing power of music to help our veterans. Guitars for Vets provides ten free private lessons and a new acoustic guitar to military veterans at VA medical and community-based Vet centers. The private lessons are taught by volunteer instructors and are then followed by group sessions that provide a forum for the veterans to talk and play music with like-minded individuals. The music sessions provide a communal atmosphere. This has proven to be a catalyst that helps the Vets continue on their road to recovery and well-being. Upon graduation, each Vet in the program is presented a guitar, gig bag, strap, tuner, method book and a certificate of completion.
