County Engineer, Brad Skinner, provided an update to the board. T20 is done except signage and paperwork. Concrete for the box culvert on 110th St was poured on Friday and needs backfill. The two bridges that will be replaced with railroad flat cars have both been removed. The large excavator and a skid loader were down and have been repaired. The second dust application was done last week. The DOT let sealcoat project is expected mid-September and the shoulder project has a completion date of November 15th. Kulmatycki asked about the rough county intersections at the Hwy 5 repaving project. Skinner stated the final layer hasn't been added and he has spoken with them regarding the intersections. McGill stated he has received several calls from RRWA regarding the new permit process requiring board approval. Skinner stated the process hasn't changed and it is still the Engineer that approves and will find out where the misinformation is coming from.

Public Comments: Rex Harris & Brian Davis spoke to the board and the engineer about their displeasure regarding the gravel roads by their farms (rock runoff and crown). Skinner stated he hadn't been out in that area and will check into it.

McGill motioned for the auditor to place a RFP for county insurance (CY2022) in the paper with a due date of 10/6/2021 at 9 A.M. Seconded by Kulmatycki. All voted aye.
